## Assignment 05 – jQuery Slider + responsive menu
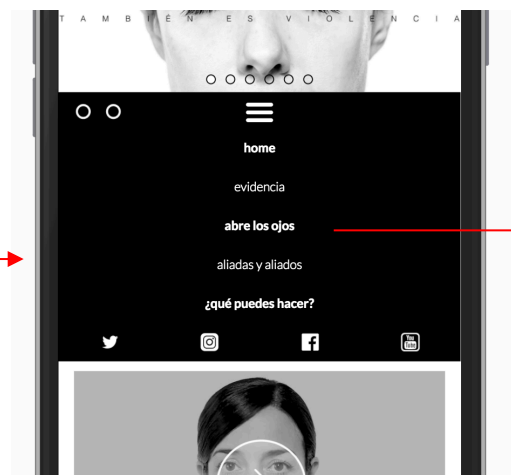

Instructions:

Work with the zip **yonocierrolosojos.zip** and add the missing functionality. For this time, we will focus only in the mobile view.

Insert a slider using the images found in the **img** folder (banner-01 to banner-06)

Clicking on the hamburger menu should slide up / down the nav menu.

Clicking on any menu item should smooth scroll to the corresponding section.
